1. Residency

- a. My wife and I have maintained a single room residence in a private dwelling at 3151 Driscoll Drive for approximately **15 plus years** except for the period when our room was used to hospice the mother of Lois Sigafos-Peruta.
- b. We have owned our current mobile residence since January of 2006 when we replaced a previous mobile home residence both of which were registered in California.
- c. I have done extensive research on the issue of residency vs. domicile and attempted on several occasions both verbally and in writing to get a clarification on the issue from the San Diego Sheriff's Department without success.
- d. We have wintered in San Diego annually since the fall of 2007 in our mobile residence except during the period following our granddaughter's birth in June of 2007.
- e. We travel back to our primary domicile in CT during the summer months to visit with family.
- f. We occasionally travel to and spend time at our Florida residence while traveling between Connecticut and California.
- g. A California Identification card listing a San Diego address was issued in my name by the California Department of Motor Vehicles.
- h. I possess photographs, various financial records and witnesses that document periods of residency in San Diego County going back to the mid to late nineteen nineties with personal computerized database documentation since approximately 2002.

CALIFORNIA PENAL CODE SECTION 2032

Except as provided in this article, if a person has MORE THAN ONE RESIDENCE and that person has not physically resided at any one of the residences within the immediate preceding year, there shall be a rebuttable presumption that those residences in which he or she has not so resided within the immediate preceding year are MERELY RESIDENCES as defined in subdivision (c) of Section 349 and NOT HIS OR HER DOMICILE.

2. Good Cause

- a. Several current and retired Chief's of Police, together with other members of law enforcement suggested that I obtain and carry a firearm for protection while living in a Recreational vehicle.
- b. I believe that I have good cause to justify a CCW and will stand the reasons stated.
- c. I believe that possessing a CCW and carrying concealed justifies Good Cause and is in the best interest of California citizens and member of law enforcement due to the application and training requirements that are not mandatory for Unloaded Open Carry.
- d. Black's Law Dictionary lists sufficient cause under "good cause." **Good cause is defined as** "[a] legally sufficient reason. Good cause is often the burden placed on a litigant (usually by court rule or order) to show why a request should be granted or an action excused." **BLACK'S LAW DICTIONARY 8TH ED.**

3. Moral Character

- a. There are public officials and private citizens with unimpeachable credentials that were and are currently prepared to offer opinions on the moral character of Edward Peruta.
- b. References were supplied to the San Diego Sheriff's Department as part of the CCW application.
- c. **NONE** of the references provided as part of the CCW application were contacted to inquire about or determine my moral character as part of the application process.
- d. My suitability to purchase, possess and carry a firearm openly or concealed has been reviewed and approved by issuing law enforcement agencies in the states of Connecticut, Florida and Utah.

e. Good **moral character** is also defined as: "A pattern of behavior that is consistent with the community's current ethical standards and that shows an absence of deceit or morally reprehensible conduct." **BLACK'S LAW DICTIONARY** 701 (7th ed. 1999).
